

PUZZLE STICKS®

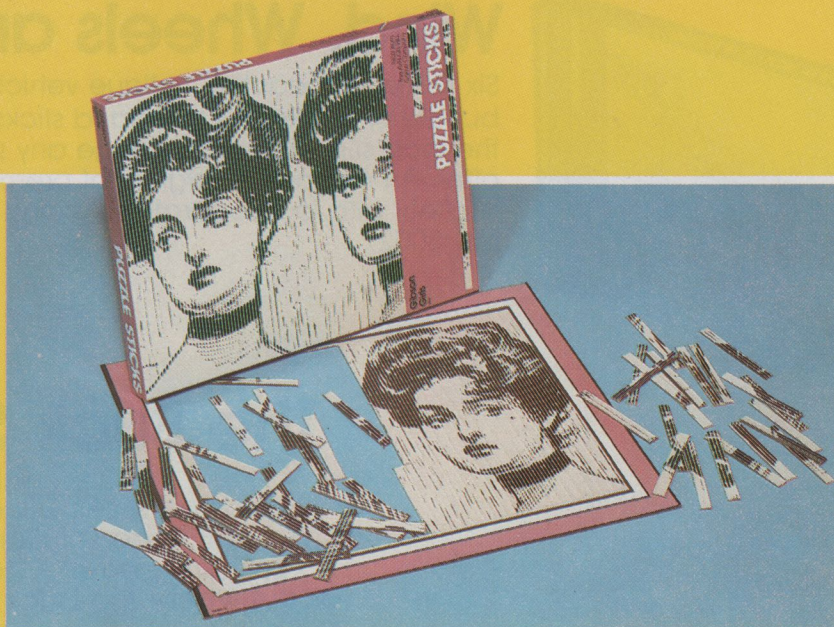

A new concept
from
The Avalon Hill
Game Company

U.S. PATENT NO. 3854726

What in the world are PUZZLE STICKS?

If you're bored with traditional table puzzles, you'll want to try your hand at the only new puzzle idea to be patented in several decades! To solve one of these multi-solution puzzles calls for a keen sense of perception. Your eye must single out related shapes, related color, related shadings and density of print. To make a whole out of seemingly unrelated parts containing minute bits of information is challenging to a high degree. At first glance, the colorful disarray boggles your mind. Each individual stick is almost exactly alike. Since each puzzle has more than one solution, the **PUZZLE STICKS** player must soon decide which picture to attempt first. Often the puzzle is almost finished before disclosing the beauty of its complex subject . . . and once complete, the picture on the other side might be hopelessly scrambled! An interlocking FRAME is included in each package. Each colorful frame not only contains the sticks while solving the puzzle, but can be used upon completion for framing the picture of your choice. Playable as solitaire or in a variety of versions with opponents. Market research and testing show the puzzle method to be just the sort of challenge demanded by Avalon Hill devotees: namely, mind benders that are ambiguous, paradoxical, perplexing and deceptive, yet colorful and complex. **PUZZLE STICKS** have developed into another rage. Yesterday there were jigsaws . . . today **PUZZLE STICKS**. There's simply no comparison!

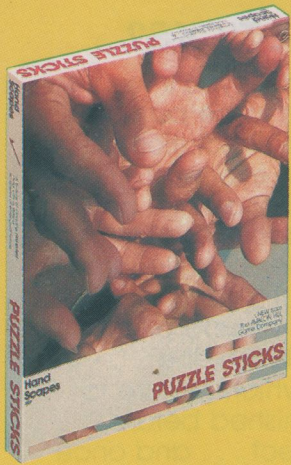

Gibson Girls

What's original in picture puzzles for the ardent puzzle lover? It's this bundle of intriguing sticks, with a mysterious code printed on both sides. Pure delight for those who love to grapple with a subtle and finely-tuned challenge!
